COVID-19 Pandemic

Requests for Sick or Absent Notes, Forms or Medical Letters

Please be advised that due to the current public health emergency underway, we will not be able to complete forms, write medical letters or write sick notes. This will help us focus our work towards managing the pandemic.

If you have any questions or concerns, please let us know. However, we may be delayed in getting back to you because of a high volume of patients seeking care.

We are responding to essential services only at this time. We ask for your understanding and that you do not penalize our patient.

In light of recent legislation changes waiving the requirement for notes, it is our hope that both insurance and employment companies will review their procedure for requests of this nature.
